A Systematic Approach to managing Congestive Heart Failure...What to do when you hear a heart murmur

This presentation will review concepts around heart murmur formation and breed predispositions. Included will be a detailed discussion of the 2009 Consensus Statement on Mitral Valve disease covering diagnosis and treatment, at each of the four stages of heart disease related to mitral valve endocardiosis.

Presented by:

Tom Schwarzer, DVM

Dr. Schwarzer graduated from the University of Guelph, Ontario Veterinary College in 1999 and practiced for 3 years at busy 24 hour emergency and critical care hospital in Ottawa, Canada. Dr. Schwarzer relocated to Toronto to assist in the opening of a new emergency clinic, while teaching client communication skills to final year veterinary students at the Ontario Veterinary College. In 2003, he earned his MBA from the University of British Columbia, incorporating a semester abroad at the Australian Graduate School of Management in Sydney, Australia. In 2005, he was recruited by Boehringer Ingelheim Vetmedica Inc. as a technical services veterinarian during the launch of their pet division. Dr. Schwarzer worked in adverse event reporting, pharmacovigilance and technical support for both pet and equine products until 2008 when he accepted his current position as a Professional Services Veterinarian for the Pacific Northwest. Tom currently lives in Portland Oregon with his wife, Kathryn (a board certified veterinary cardiologist), one dog, one cat and his 6 year old daughter Elise.
